

Subscription Tracker

Every recurring payment in one place, with the annual cost worked out.

WHAT IT DOES

- Lists each subscription with its cost and how often it is charged.
- Converts everything to an annual figure so monthly and yearly plans compare.

THE TABS

Start Here Dashboard Subscriptions

HOW TO USE IT

- 01 On Subscriptions, list each one with its cost and billing period.
- 02 Read the Dashboard for the annual total.
- 03 Cancel whatever surprises you.

THE ONE THING THAT MAKES THIS DIFFERENT

Everything is converted to a yearly cost. A £9 monthly and a £99 yearly plan are not comparable until they are on the same footing.

BEFORE YOU TRUST A NUMBER

- **Blue bold on cream** means you type there. **Plain black** means the sheet works it out — typing over one of those replaces a formula with a number and it stops updating.
- Every formula is explained on the **How It Works** tab. Nothing is hidden, and nothing needs a macro.
- The sample rows are there to show the shape. Delete them before you start.
